

Role: Instructor

About us:

Loop Coding Center is an educational tech startup that was built with the idea that every teenager should have the opportunity to learn how to code and to discover and foster new skills. We serve in underrepresented areas by exposing and making tech accessible by going to areas where teens don't have the resources to learn how to code and we expose teens by bringing them to areas where otherwise they wouldn't discover.

We launched Loop Coding Center in February 2017 and our mission since day one has been to close the diversity gap in the tech field by teaching programming to students in underrepresented areas and our vision is to equip minorities students with the tools they need to become programmers.

Position Overview:

As an instructor at Loop Coding Center, you will be a key player to the organization by being in the front line teaching students many new skills in a fun and interactive approach. The content of the class is ready to be used, but accommodations can be made to create a better curriculum. We use design thinking and reverse learning approach to make our classroom differentiate from regular schools.

Responsibilities:

- Work closely with team members in the organization to create better content
- Be an outgoing person with a sense of humor and kindness
- Have some teaching/facilitator/instructor experience
- Experience with working with 12 - 18 years old
- knowing basic HTML, CSS & JavaScript is a plus (not require)
- Be able to engage with students
- Be a creator, innovator and problem solver
- Open-minded and sensitive to the cultural, ethnic, religious and daily activity norms of individuals from around the world.
- Able to adapt manner and communication style to accommodate those for whom English is a second language
- Work with minimum supervision

Work Environment:

You will have the opportunity to work remotely or in our office in Downtown GR. Our office is open 7 days a week to accommodate your schedule. When teaching the class, the environment will depend on the school or non-profit location. Some commute to the school will be required.
