

## **AppraisalSave.com**

West Michigan based real estate appraisal company is expanding nationwide. Searching for a self-motivated individual with experience in social media and marketing, graphic design would be a plus, but especially great people skills, and common sense! Part-time to begin, 10 hours a week +/- . Work from home, coffee shop, or car, you choose your hours. To begin weekly tasks would include:

1. Expanding LinkedIn presence and weekly/monthly correspondence with connections.
2. Improving company's social media sites and presence.

Work directly with co-founders and be employee #1 for a company with the potential for great growth. Perfect for a college student, however, the potential for more hours and a larger role in the company is likely available down the road.
